ADVANCE PRICE LIST

OF THE

GLEN ST. MARY NURSERIES,

G. L. TABER, Proprietor,

GLEN ST. MARY, FLA.

The Annual Descriptive Catalogue of these Nurseries will be issued as early as possible during the fall, and will be much more comprehensive than any I have previously issued. In the meantime, before my full Descriptive Catalogue can be completed, I beg to hand you this "Advance Price List," which contains, also, in addition to prices, a brief description of the peaches listed, conveniently classified.

I wish here to call particular attention to my stock of nearly 200,000 *Peach Trees*, and to the choice collection of varieties listed.

For the past seven years I have been continually securing, and planting in my own orchards, all such varieties of peaches as promised to be of value for Florida and the extreme South, and such of these numerous varieties as have proved to be valuable have been, from time to time, added to my nursery stock.

No expense or labor has been spared in trying to make this collection of peaches the most valuable ever grown in America, of varieties *adapted to Florida and the Gulf Coast Region*. All the prominent new varieties that have originated from the Peen-to and Honey have been secured, many of them

at large expense. For one variety, the Angel, I paid \$25 for a single tree one year ago. One or two valuable varieties have also originated in my own seedling orchards, where large numbers of seedlings of the Peen-to and Honey and other valuable Southern varieties have been planted.

☞ The stocks on which these peaches are budded are all home-grown by myself, from *Florida native seed*, of which fifty bushels, or more, are planted annually. Only budded varieties of peaches are listed. Seedlings will be priced upon application.

☞ Please notice that *everything* shipped from these Nurseries is warranted positively free from root-knot or other insects, and fully up to the high standard maintained by these Nurseries during the past six years.

The low prices herein named are only guaranteed to hold good on stock engaged, and orders accompanied by one-fifth of the amount, previous to the issue of my fall Catalogue. Place your orders early, and thus make sure of just such stock as you want, and at low prices.

Any further information regarding varieties will be cheerfully given.

Correspondence in relation to large orders particulary solicited. Address

BUDS BY MAIL.

I can furnish buds of most varieties during the months of July, August and September.

At the prices herewith given, they will be sent by mail, securely packed, and postage prepaid.

No orders for buds will be accepted for a less amount than one dollar, nor less than twenty buds of one kind. All orders must be accompanied by cash.

If, in remitting, it becomes necessary to send postage stamps to make up a fractional part of a dollar, *be sure that stamps are wrapped in thin paper in such a way that they will not become stuck to each other or to the letter.*
